GAMBETTA'S BRAIN

A Question as to Its Weight Is Raised by Prefessor B. G. Wilder

Str: George W. Smalley's letter on Mr. Chamberlain in The Tribune of Sunday, August 6, in connection with comments from him in a brutal way might not be upon the lack of correlation between that tempted to say the same thing? statesman's mental powers and the size of When Gambetta died they weighed his

might be warranted by certain statements prove that woman is unfit to vote made shortly after Gambetta's death. That even this is too low will appear from the New Rochelle, N. Y. Aug. 22, 1911.

Democratic platform, and Democratic platforms have embraced all possible stades of tariff doctrine between free trade and outright protection. To make the danger of their conveying infection the duinhility of an imported article depend upon the occupation of the per-Study of the Brains of Six Eminent Sci-

1883. Body preserved with an injection of zinc chloride. On opening the skull Duval observed that considerable fluid had exuded and that the brain had shrunk. Brain weight on removal, 1.160 grams [40.9 ounces] Duval estimates from measurements of the entogranial cast and by other methods, severally, 1,294, 1,294 and 1,241 grams; average,

Either of these figures is considerably below the brain weight of the average male European (1,400 grams, or 49.3 ounces), and markedly below the average for twenty French notables (1,467 -grams, or 51.35 ounces). On the other hand, they are nearly, or more than, double the weight given in Mr. Smalley's article, which is probably

a misprint for forty-two. The smallest brain of a rational man hitherto recorded is that of Daniel Lyon, a white watchman, of New York City. weighed by the coroner's physician, Dr. Philip O'Hanlon and Professor J. H. Larkin, and exhibited and briefly described by me before the American Philosophical Society and the American Neurological Asso-

ciation in the spring of 1910. Statistics as to the brain weights of individuals, groups and races may be found in the paper of Dr. Spitzka, already mentioned, and in my address, "The Brain of the American Negro," "Proceedings of the First National Negro Conference, 1909," No. 20 Vesey street, New York. Let me add that this letter has been delayed in the hope that Mr. Smalley would publish a correction himself. BURT G. WILDER.

Siasconset, Mass., Aug. 23, 1911.

CITY EFFICIENCY STANDARDS

Writer Believes Their Establishment Would Protect the Community.

To the Editor of The Tribune: Sir: At the hearing on the proposed to-day the qualifications, allocations and duties of the Commissioner of Accounts were earnestly discussed by Baker, Dr. William Allen and Frank C. The speakers agreed that thers. should be a trained accountant, but differed as to whether he should or should not be under the control of the Mayor, and consequently whether he should or should not have the power of initiative regarding investigations.

to attain by the creation of this office is.

results which it may reasonably be expected will be produced

proper function of the accountant. To be of any use both standards and
